ROLLINSFORD SCHOOL DISTRICT

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Rollinsford:

The education of the students in Rollinsford has been greatly enhanced during the past year. The voters approval of the AREA school concept has freed space in the grade school which has improved the learning environment. Class size in all but Grade 3 has been reduced to desirable levels which assure pupils of closer attention and quality classroom opportunity.

GRADE SCHOOL

A continuing priority is the need to provide services for grade-school level youngsters in conseling, and specialists in reading, physical education, and art are needed. The music and speech services continue to be very satisfactory from the Supervisory Union level.

AREA SCHOOL

Students in Grades 7-8 at the Middle School in Somersworth are taking part for the first time in a broadened educational program. The Middle School program, in addition to providing the basic subjects, also includes industrial arts, home economics, physical education, and art. Guidance services also are available, and, by fall of 1970, the library resource center should be in full operation.

The transition in the AREA school concept has been smooth, and the blending of Rollinsford and Somersworth students has proven advantageous. The broadened school program is the most significant benefit of the AREA concept for both communities. With small-school enrollments, the inclusion of a comprehensive school program would have been prohibitive from a cost basis. The school board is maintaining a close liaison with the AREA concept through the superintendent's office and through meetings with the Somersworth School Board.

TEACHER WORKSHOPS

Unexpected holidays have appeared for students during the past year in terms of teachers workshop days. The number of days on which students attend school remains fixed at 180. The insertion of workshop days has afforded our teachers an opportunity to keep up with new directions in education. The provision of three workshop days before the opening of the school year provided for a smooth school opening. The workshop days during the school year have been used for curriculum assessment. The staff has met with the Somersworth staff to evaluate the skills taught in each grade and also to survey new educational materials.

BOARD POLICY STUDY

Board approval of a Policy Consultant with other districts in the Supervisory Union will assist us in the coding and updating of all board policies in the next twelve months. The Croft Consulting Services of Tucson, Arizona, has been contacted for this work, and its representative from Pittsfield, New Hampshire, will be the board's liaison person.

USE OF SCHOOL FACILITIES

The board has approved use of the school facilities at an increasing rate by outside groups. The gym has been made available for older boys' activities on weekend evenings and for grade school youngsters on Saturdays. Other interested citizens have sponsored a skating rink on school property. These programs are proving successful through the responsibility of those involved. Therefore, a closer school-community spirit is being established.

CONCLUSION

I should like to make particular mention of the efforts on the part of the PTA to assist the grade school and to provide a forum for citizens through the "Know YOUR Town" program. Also, the gift of money for play equipment from the American Legion Post No. 47 has been generous. Volunteers for staffing the school library have served us well in the past. We need to reassess our library program for the future.

I have enjoyed working with the board and school staff during the past year, and I am impressed with their concern for the students of Rollinsford through a sound educational program.

Respectfully Submitted,

JOHN H. POWERS

Superintendent of Schools

To: The Superintendent of Schools
The Rollinsford School Board
The Citizens of the Town of Rollinsford, N. H.

It is with pleasure that I submit to you this annual report covering in part some of the activities of the Rollinsford Grade School during the past year.

Elementary Education is usually understood to mean appropriate schooling for children between the ages of six and fourteen. It is traditionally thought of in terms of mastery of the fundamentals of reading, writing, and arithmetic. The concept of elementary education has been expanding in recent years to include the furtherance of all aspects of the wholesome growth and development of children.

The general aim is the fullest development of each child. The goals of elementary education are both individual and social; they are derived from the basic needs of children and the demands of society.

Modern elementary education is concerned with helping each child to affect a behavioral change of each of the following types:

- (A) Knowledge and Understanding
- (B) Skill and Competence
- (C) Attitude and Interest
- (D) Action Pattern

These Changes would be applied in the following areas:

- (A) Physical Development, Health and Body Care
- (B) Individual Social and Emotional Development
- (C) Ethical Behavior, Standards, and Values
- (D) Social Relations
- (E) The Social World
- (F) The Physical World
- (G) Esthetic Development
- (H) Communication
- (I) Quantitative Relationships

FACULTY

There have been numerous changes in the faculty since the close of school last June. Mrs. Nan Bowling was hired to replace Mrs. Patricia Harris who had resigned to go with her husband to the Mid-West. Mrs. Bowling came to us well recommended and is doing a very competent job of managing one of the first grade sections.

Because of the numbers of pupils in both the third and fourth grades, both grades should have been split into two sections. But, because of the budget cut at the District meeting there were insufficient funds to do this. Mrs. Mary Mittlestadt was hired on a part-time basis, one-half day to teach the third grade section 3-2. This she does with a great deal of ease and competence. Mr. Hatfield fills in as the other half day third grade teacher.

With Mrs. Edna Langley's retirement last June, it became necessary to hire a replacement teacher for her. Because of the size of the grade, it should have been split into two sections. Again because of the budget cut as outlined above it was impossible to do this. Mrs. Louise Chamberlain was hired as a full time teacher of the fourth grade, and is extremely competent. To help her in her work with this grade, Mrs. Lydia Reardon was again hired as a Teacher's Aide.

Since Rollinsford and Somersworth have combined in an Area school concept, the seventh and eighth grades have gone to Somersworth. We no longer needed the faculty members who have been in these areas, and they were not rehired. In order to complete the staff in the fifth grade, Miss Patricia Young was hired. She came to us well recommended from her previous job and is doing well in her present assignment. She and Mr. Vezeau have combined their efforts in a team teaching arrangement that utilizes the best strengths of each.

Both teachers in the sixth grade area have come to us well recommended and with experience. Mr. Edward Konczeski, who has had previous experience in the Boston schools, is doing a fine job in the sixth grade. Mrs. Joanne Tuttle, who came to us highly recommended is doing a fine job in the other sixth grade section. Here, as in the fifth grade, we are having team teaching utilizing the strengths of both teachers to best advantage.

Please refer to the Faculty Date Sheet for the pertinent facts about each of the faculty members.

PUPILS ATTENDING SCHOOLS OTHER THAN IN ROLLINSFORD

The following table shows that there are a number of pupils of school age that attend schools in areas other than the Rollinsford Grade School. It should be noted carefully that some of these pupils are attending private schools and are paying their own tuition. If these children were to return to the public school system of Rollinsford, there would be a substantial increase in the costs of education to the Town.

CONCLUSION

I would like, at this time, to offer the thanks of the Faculty and the Staff to the Townspeople for their continued support of the school and its endeavors to provide a competitive education for the pupils. The degree, depth, and scope of this education can only be measured by the interest and the desires of the parents as well as their willingness to meet courageously the ever increasing costs of education both in the elementary and in the secondary schools.

I wish also to thank the P. T. A. as an organization and to thank the members individually for their fine spirit of cooperation and their outstanding support financially as shown by their many gifts and donations to the school.

I wish to make mention of and give my thanks to the following for their contributions to the school:

- (1) To the Martel-Roberge Post American Legion for its donation to the school district of \$500.00 for athletic equipment. Also to the Post for its support of the German Measles Vaccination Clinic.
- (2) To Mr. Kenneth Bolduc and his fellow firemen for their interest shown by the installation, maintenance and supervision of the ice-skating rink in the rear playground of the school.
- (3) To Mr. Robert Garneau and his associates in providing supervision and equipment for the use of the High School group for recreational purposes in the gym on week-ends.
- (4) To Mr. Regis Renaud and his group who devote their Saturday afternoons to basketball instruction for boys of the fifth and sixth grades.
- (5) To Mothers who serve as assistant librarians.
- (6) To Mr. Paul Janetos for his personal donations of athletic equipment and gear.

During the present school year (1969-1970), I've attended sessions with Miss Ann Bulbulyan, psychiatric nurse, from the Strafford Guidance Center, who has been most helpful to me and the teachers in better understanding our problem children.

With the help of the N. H. Division of Public Health, the American Legion, Post #47, and Dr. John J. Murphy, we will be having a German Measles Clinic in February, 1970, for all school children attending nursery school through age 12.

The most time consuming part of being a school nurse is trying to find the parents or baby-sitter when a child is ill. Parents would be most helpful if they would notify the teacher or the office of a change of employment or tell their child where they plan to be if the child needs them.

Mrs. Lillian N. Dodier, R. N.
 Rollinsford School Nurse
